Re: Reference for Bill Pagaran

To Whom It May Concern:

I have known Bill Pagaran for nearly ten years. I first knew him as a fellow music teacher and since have had the pleasure of working with him as part of our drug and alcohol prevention program at Wasilla Middle School.

Bill has always been a person high moral values and character. He has been open and honest about his life and has dedicated himself to helping others. His talent as a musician gives him an excellent forum from which to convey his message to young people.

Last year Bill and his group performed in front of nearly 900 students at Wasilla Middle School. The students were attentive and excited. I believe his message about drug and alcohol use was heard by many of the students.

It is important for people like Bill to reach out to our youth and send them a message about substance abuse. Bill provides an appropriate role model and is making an impact.

Sincerely,

Bob Thompson, Principal
Wasilla Middle School
